OBJECTIVE

To obtain a Tinkoff Start to further utilize my knowledge and experience in Data Analysis.

EDUCATION

ITMO University, Saint-Petersburg, Russia   September 2019 – August 2023
  Bachelor of Infocommunication Technologies, Applied Programming
    GPA: 4.95/5.00
    C2 English
  Online certificates:
- **Mathematics and Python for DA** by Yandex and MIPT
- **Probability theory** by CSC
- **Algorithms** by CSC
- **Neural Networks and Deep learning** by DeepLearning.AI
- **Image Processing** by HSE
- **OOP and design patterns in Python** by Mail.ru and MIPT
- **Diving into Python** by Mail.ru and MIPT
- **Python programming** by Bioinformatics Institute

TECHNOLOGY SKILLS

Hard skills: Programming, Machine learning, Statistics, Deep learning, NLP, Reinforcement learning, CV, Data Visualisation
Technical skills: Python, SQL, Numpy, PyTorch, Pandas, SciPy, C#, Docker, Linux.
Soft skills: teamwork, presentation skills, time management, critical thinking, brainstorming.

DATA SCIENCE EXPERIENCE

IV ICT Hack   May 2022
- Data Mining;
- Making baselines;
- Creation of NPL models for multiclass classification;
- Selection of the best parameters for training neural networks, solving the optimization problem;
- Project presentation of smart chat-bot.

Applied AI Challenge   May 2022
- Time series forcasting
- Traditional time series analysis
- Autoregression CatBoost model
- Presentation and defense of research

Fake news Detection – student project   March – June 2021
- NLP model training for binary classification
- Image2Text recognission

ADDITIONAL ACTIVITIES

- Ex-leader of basketball team

- Volunteer of ITMO Introductions Days

- The head of the group at the university
